Letter of Recommendation

To Whom It May Concern:

Pharmavite places a high priority on preparedness for any eventuality that could impact our Business Continuity, and I strongly recommend MLC & Associates, Inc. to any company that feels the same way.

We learned the value of this sort of planning the hard way during the disruption of the 1994 Northridge Earthquake. Since then, we have worked with MLC to address the challenges that were made apparent by that disaster and we have continually incorporated their methodology into our business strategy, executive leadership and all the processes a company needs to reach top performance.

In my opinion, MLC's long experience and time-tested approach has strengthened our company not only from the top down, but also throughout each division, department, team and individual. MLC has proven to be a valuable partner providing the conscientious and independent direction, advice and strategic tools that have given us the confidence we need to prepare for and grow into the future. I certainly recommend that you give MLC the chance to prove the same to you.

Sincerely,

Connie Berg Barry
President and Chief Executive Officer
